TILING CHECKLIST

ABOUT US

At MTM Tiling, we supply and install ceramic, natural stone, and porcelain tiles at both domestic and commercial properties. During our 30+ years, we have developed an enviable reputation for providing a premium service that is focused upon meeting the customer's needs.

To ensure that the end result is exactly what the customer expects, we make sure that we are armed with your preferences and choices before commencing the project by conducting a consultation with you two weeks prior to the start date. We will offer advice, discuss all available options for tiles, trims, and grout colours, then provide you with a checklist so that you can envisage the finished effect. Our team will also advise on aftercare solutions appropriate to your tile's material, to help inform your decision.

During our domestic work, the methods we use are tailored to control the amount of dust and waste created. It is inevitable, however, that some debris will occur. To protect your home, we always lay dust sheets before starting the job, while every part of your home is treated with the utmost care and respect.

Joe, who completed the tiling, did an amazing job! Very professional and had a real eye for detail and had a lot of patience. His work is of an exceptionally high standard.
